Commercial kitchens are notorious for high energy use—as much as three times more per square foot than other commercial buildings, like offices or retail stores. That is why Focus on Energy offers **instant discounts** on qualifying equipment. Outfitting a commercial kitchen with ENERGY STAR® certified products could help you save more than \$5,300 a year on energy costs.

Saving With Focus Is Easy

All you need to do is ask your local equipment supplier if they participate or reach out to us at midstream@focusonenergy.com. Visit focusonenergy.com/commercialkitchenequipment to find a Trade Ally.

ENERGY STAR certified commercial kitchen equipment helps café, restaurant, and institutional kitchen operators save energy by cutting utility and maintenance costs without sacrificing features, quality, or style. Saving energy helps save money on utility bills and helps protect the climate by reducing greenhouse gas emissions.

REDUCING ENERGY WASTE ACROSS WISCONSIN

Focus on Energy, Wisconsin utilities' statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources, and financial incentives help to implement energy efficiency and renewable energy projects that otherwise would not be completed. ©2022 Wisconsin Focus on Energy
