

# 2022 SOLAR REBATE APPLICATION

Scan to go to  
online application

Complete this application for equipments purchased and placed into operation in 2022.

## Step 1: Complete Your Installation

Work with your contractor to schedule and complete your solar project, also known as photovoltaic (PV), installation. Equipment must be operational and interconnected to submit the rebate application.

It is strongly recommended that the online reservation be completed prior to installation to hold your rebate.

Looking for the reservation form?

Go to [focusonenergy.com/PVreservation](https://focusonenergy.com/PVreservation).

## Step 2: Complete Your Application

Incomplete or missing information will delay processing.

### Required documentation:

- A copy of your invoice for installation of a solar equipment.
- Photos of:
  - The entire installed solar array. This may be multiple pictures, but must clearly demonstrate the number of modules installed. If necessary, a diagram of the equipment should also be included.
  - The front of building associated with address.
  - The array with building in the background (if not possible, a diagram of equipment relative to the building).

## Step 3: Submit Paperwork

Submit your application **within 60 days** of the equipment being placed into operation, along with supporting documentation.

FOCUS ON ENERGY® rebates are limited and are subject to change without notice. Allow 8-10 weeks for processing. Visit [focusonenergy.com/terms](https://focusonenergy.com/terms) for terms and conditions.

## Solar Equipment Requirements

### Equipment-Specific Solar Requirements

- Eligible models must be selected from the qualified PV module product list found at [energy.ca.gov/programs-and-topics/programs/solar-equipment-lists](https://energy.ca.gov/programs-and-topics/programs/solar-equipment-lists).
- Eligible inverters must be selected from the qualified Grid support inverters product list found at [energy.ca.gov/programs-and-topics/programs/solar-equipment-lists](https://energy.ca.gov/programs-and-topics/programs/solar-equipment-lists).
- Equipment must be installed with a panel tilt between 5–50 degrees.
- Equipment must be installed within 135 degrees of due south.
- Equipment capacity must be 0.5 kWDC or greater.
- Equipment must be installed with 15% or less obstacle shading, per an industry accepted tool.
- Equipment must have a minimum of a five-year warranty.
- Rebate cannot exceed cost to customer.
- In order to receive a commercial rebate, the equipment must be connected through a non-residential rate meter.
- Equipment must be purchased new. Resale equipment, new parts installed in existing equipment, or equipment that is rebuilt, rented, received from insurance claims, received from a warranty, or won as a prize does not qualify.
- Focus on Energy will only pay one rebate per calendar year. Rebates paid on this application cannot be claimed on another Focus on Energy application. Similarly, rebates can only be paid to one person or entity.
- Equipment must be installed by a qualified contractor.

### Equipment Information

## Residential Customer Solar Rebates

Installation Type	Rebate
Single-Family Home	\$500 per equipment

- Residential rural customers will receive a \$500 bonus for installing a equipment. See eligible rural ZIP code list at [focusonenergy.com/renewablefunding](https://focusonenergy.com/renewablefunding) to confirm eligibility.

## Business Customer Solar Rebates

Equipment Size in kW (DC)	Rebate	Maximum Rebate
Up to 5 kW	\$200 per kW	\$1,000
5-10 kW	\$1,000 + \$150 per kW above 5 kW	\$1,750
10-100 kW	\$1,750 + \$125 per kW above 10 kW	\$13,000
100-300 kW	\$13,000 + \$100 per kW above 100 kW	\$33,000
300-500 kW*	\$33,000 + \$85 per kW above 300 kW	\$50,000

\*Solar PV equipments 500 kW and above will be capped at the maximum rebate of \$50,000.

- Business customers classified as agricultural producers will qualify for a **rebate match up to \$10,000**. Agricultural producers are defined as “businesses engaged in the production of grain, livestock, milk, poultry, fruits, vegetables, bees and honey, fish, shellfish, or other common agricultural products including greenhouses.”

## Special Sector Solar Rebates

Equipment Size in kW (DC)	Rebate	Maximum Rebate
Up to 5 kW	\$1,000	\$5,000
5-10 kW	\$5,000 + \$700 per kW above 5 kW	\$8,500
10-100 kW	\$8,500 + \$250 per kW above 10 kW	\$31,000
100-300 kW	\$31,000 + \$150 per kW above 100 kW	\$61,000
300-500 kW*	\$61,000 + \$100 per kW above 300 kW	\$81,000

\*Solar PV equipments 500 kW and above will be capped at the maximum rebate of \$81,000.

- Nonprofits, schools, government, and Tribal Nations can qualify for a rebate of up to \$81,000 for installing solar equipment.
- This rebate helps organizations that do not qualify for the solar investment tax credit (ITC) to offset the cost of installing solar equipment.
